

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

GMELIN'S CHEMISTRY.

The Concluding Volume (the 18th) of the
HAND-BOOK OF CHEMISTRY,

Translated and Edited by
HENRY WATTS, B.A., F.R.S.,
Is now ready.

HARRISON AND SONS,
BOOKSELLERS TO HER MAJESTY AND H.R.H. THE PRINCE OF WALES,
59, PALL MALL, LONDON, S.W.

October 20, 1871.

Messrs. HARRISON and SONS have to announce that, in accordance with the arrangements made with the Council of the Cavendish Society, they have completed the above important work.

Subscribers are informed that this, the concluding volume, together with the Index, will be forwarded to all those who have paid their subscription for the year 1864.

Several of the volumes being now out of print, and others very scarce, subscribers desirous of completing sets are requested to make early application.

Messrs. Harrison and Sons are enabled to offer, for a limited period, complete sets of the Organic Chemistry (12 volumes) for Four Guineas, or separate volumes at 10s. 6d. each.

59, Pall Mall, London, S.W.

CAVENDISH SOCIETY PUBLICATIONS.

THE following Works can now be had of HARRISON and Sons, 95, Pall Mall, at the prices affixed :—

HAND-BOOK OF CHEMISTRY, by LEOPOLD GMELIN, translated and edited by HENRY WATTS, B.A., F.R.S.

INORGANIC CHEMISTRY. 6 vols., demy 8vo, cloth. Some of these volumes are out of print. A new edition of vol. 1, and a few of vols. 4, 5, and 6, can be had to complete sets, 10s. 6d. each.

ORGANIC CHEMISTRY. 12 vols., demy 8vo, cloth, complete for £4 4s.; separate vols., 10s. 6d.

LIFE AND WORKS OF CAVENDISH, by Dr. GEORGE WILSON. 1 vol., demy 8vo, cloth 7s.

LIFE AND SCIENTIFIC RESEARCHES OF DALTON, by Dr. W. C. HENRY. 1 vol., demy 8vo, cloth, 7s.

LAURENT'S CHEMICAL METHOD, translated by Dr. OLDING, F.R.S. 1 vol., demy 8vo, cloth, 7s.

ELEMENTS OF CHEMICAL AND PHYSICAL GEOLOGY, by GUSTAV BISCHOF, Ph.D. Edited, and in part translated from the Manuscript of the Author, by BENJ. H. PAUL, Ph.D. 3 vols., demy 8vo, cloth, £1 11s. 6d.

LEHMANN'S PHYSIOLOGICAL CHEMISTRY, translated and edited by Dr. G. E. DAY, F.R.S. *The first volume of this work is out of print.* The 2nd and 3rd vols., demy 8vo, cloth, 7s. each.

DR. OTTO FUNKE'S ATLAS OF PHYSIOLOGICAL PLATES. 7s.

HARRISON AND SONS,

BOOKSELLERS TO HER MAJESTY AND H.R.H. THE PRINCE OF WALES.

59, PALL MALL, LONDON, S.W.

INDEX

TO

GMELIN'S HANDBOOK OF CHEMISTRY.

N.B. *The figures in thick type denote the volumes.*

A.

<i>Abies balsamea</i> , Turpentine from....	18, 19	Acetamide, compounds of	12, 543
<i>Abies excelsa</i> , Oil from the seeds of	16, 316	" preparation of, from acetate of ammonia	12, 543
" Turpentine from	18, 18	" with Biacetamide	12, 546
<i>Abies pectinata</i> , Turpentine from	18, 18	Acetanilide	11, 314
Abietate of Ethyl	18, 7	Acetate, Acetic	8, 334
Abietates, metallic	18, 5	" of Allyl....	10, 543; 13, 544
Abietic acid, formation of Sylvic acid from	17, 318	" Alumina	8, 303; 13, 443
Abietic Anhydride	18, 8	" Amarine	12, 197
Abietin	18, 7, 18	" Ammonia	8, 294
Abietinic Acid	18, 18	" Amyl	11, 69
Absolute strength of Affinity	1, 136	" Aniline	11, 262
" zero of Heat	1, 302	" Atropine	16, 455
Absorbent earths	3, 133	" Auric	8, 334
Absorption, compounds formed by	1, 86	" of Baryta	8, 301
" of Heat	1, 213	" Benzidine	11, 340
" Heat accompanying vaporization	1, 272	" Benzyl	12, 52
" Light	1, 165	" Benzylene	12, 224
Absynthiin	17, 354	" Berberine	17, 195
Acacia, Oil of	14, 356	" Biamidobenzoic Acid	12, 150
Acechloride of Platinum	9, 31	" Bichloromethylic	9, 231
Acediamine	12, 546	" Bichlorovinic	9, 235
Acediamine: Hydrochlorate	13, 535	" of Bismuth	8, 308
<i>Aceite d'Amacey</i>	14, 356	" Butyl	10, 107
Acephale, Byssus of	18, 372	" Cadmium	8, 310
Acephoric Acid....	9, 6	" Capryl	13, 200, 587
Acephosgenic Acid	9, 7	" Cerium	8, 303
Aceplatinous Oxide	9, 37	" Cetyl	16, 375
Acetal 9, 38; 12, 519; 13, 452, 455, 476		" Chelerythrine	17, 159
" formation of Aldehyde from	13, 437	" Chelidonine....	17, 166
Acetamidate of Mercury	12, 545	" Cholesteryl	18, 117
" Silver	12, 545	" Chromic	8, 306
Acetamide	9, 246; 13, 535	" Chromous	8, 305
		" of Cinchonidine	17, 227, 229, 613
		" Cinchonine	17, 216
		" Cobalt	8, 322
		" Cocaine	16, 303
		" Codeine	17, 96
